GHANA WASH PROJECT
SMALL GRANTS FACILITY

Relief International, the Adventist Development Relief Agency and Winrock International are implementing the **USAID Ghana Water, Sanitation and Hygiene (G-WASH) Project**. The G-WASH Project seeks to find and support local solutions to the challenges facing the WASH sector. The G- WASH Project covers under-served peri-urban and rural communities in Greater Accra, Volta, Central, Western, and Eastern Regions.

What is the Small Grants Facility?

The G-WASH Project aims to improve water and hygiene access across Ghana, and we want YOU to be part of the solution! Through the Small Grants Facility, we will provide seed funding for innovative, locally-driven solutions and activities. Small grants will be awarded to community groups and associations in regions where we already work, or in communities where our key partners work, to broaden the impact of our activities.

Sample Activities:

Behavior Change, Mobilization, & Social Marketing

- School-led hygiene promotion
- Community workshops

Civic Participation

- Advocacy activities
- Capacity building for civic participation

Supply Chain Strengthening

- Integrated maintenance centers
- Spare parts manufacturing/distribution venture

Provision and Repair of WatSan Services

- Mobile mechanics
- Seed money to entrepreneurs to establish, extend water systems

Management of Urban Water and Sanitation

- Management of pipe schemes or public latrines

Community Monitoring and Support

- Funding for monitoring, support associated costs

Innovative Technology Solutions

- Seed funding for manufacture, distribution, and marketing of appropriate technology solutions

your idea + **our small grant** = **big potential**

what's your
big idea?
